

David A. Waite, Ph.D., CHP

Senior Health Physicist, Dade Moeller & Associates, Inc.

Ph.D. General Engineering, (1972) Oklahoma State University

M.S. Radiation Physics (1965) Vanderbilt University

B.A Physics (1963) Emporia (KS) State University

American Board of Health Physics Certification (1975)

Experience

- 2009-Present *Dade Moeller & Associates.* Dr. Waite provides consulting services to the Company's commercial and governmental clients. He is lead instructor for courses provided through the Radiation Safety Academy.
- 2006-2008 *David Waite Consultants.* Dr. Waite was a Health Physics Consultant, specializing in providing health physics expertise to government, academic, and private clients. Clients included Oak Ridge Associated Universities and New Mexico State University.
- 1994-2005 *CH2M HILL.* Dr. Waite retired from the position of Global Director of Integrated Performance Assurance, in which he was responsible for the integrated management and execution of regulatory compliance, environmental protection, quality assurance and human health and safety.
- 1987-1994 *Enserch Environmental.* As National Director of Nuclear Waste and Radiological Programs, Dr. Waite was responsible for administrative and technical quality aspects of all Environmental and Waste Management Technical Support Contracts at DOE sites nationwide.
- 1972-1987 *Battelle Memorial Institute.* As a Section Manger and Senior Research Scientist, Dr. Waite managed all occupational and environmental safety efforts of the Salt Repository for High-Level Nuclear Waste Program.
- 1970-1971 *United Kingdom Atomic Energy Establishment at Winfrith.* As a member of the Attached Research Staff, Dr. Waite developed equipment and conducted research related to his Ph.D. dissertation, *The Production and Human Inhalation of Plutonium-Labeled Particles in the Submicron Range.*
- 1965-1970 *Oklahoma State University.* Dr. Waite was the Head of the Department of Radiation and Nuclear Technology in the College of Engineering.

Awards and Professional Affiliations

Fellow of the Health Physics Society (HPS); received the 1979 Elda E. Anderson Award from the National HPS to the outstanding health physicist under 40 years of age in the U.S.; served as HPS National President. He has served on WHO, OECD, NCRP, and National Academy of Science Technical Committees.

Publications

Dr. Waite has published more than 200 articles in professional journals and conference proceedings on health physics, environmental radioactivity, nuclear and mixed waste management, risk assessment and program management.
